

LeeWay AI Readiness Workshop

LeeWay AI Readiness Workshop

Human-Centered AI for Career
Success and Business Innovation

Presented by Leonard Lee

**Using AI:
Speed without
governance.**

**Working with AI:
Structured, governed
outcomes.**

**Question: Are we preparing people to
work with AI—or simply use it?**

The Unchecked AI Trap

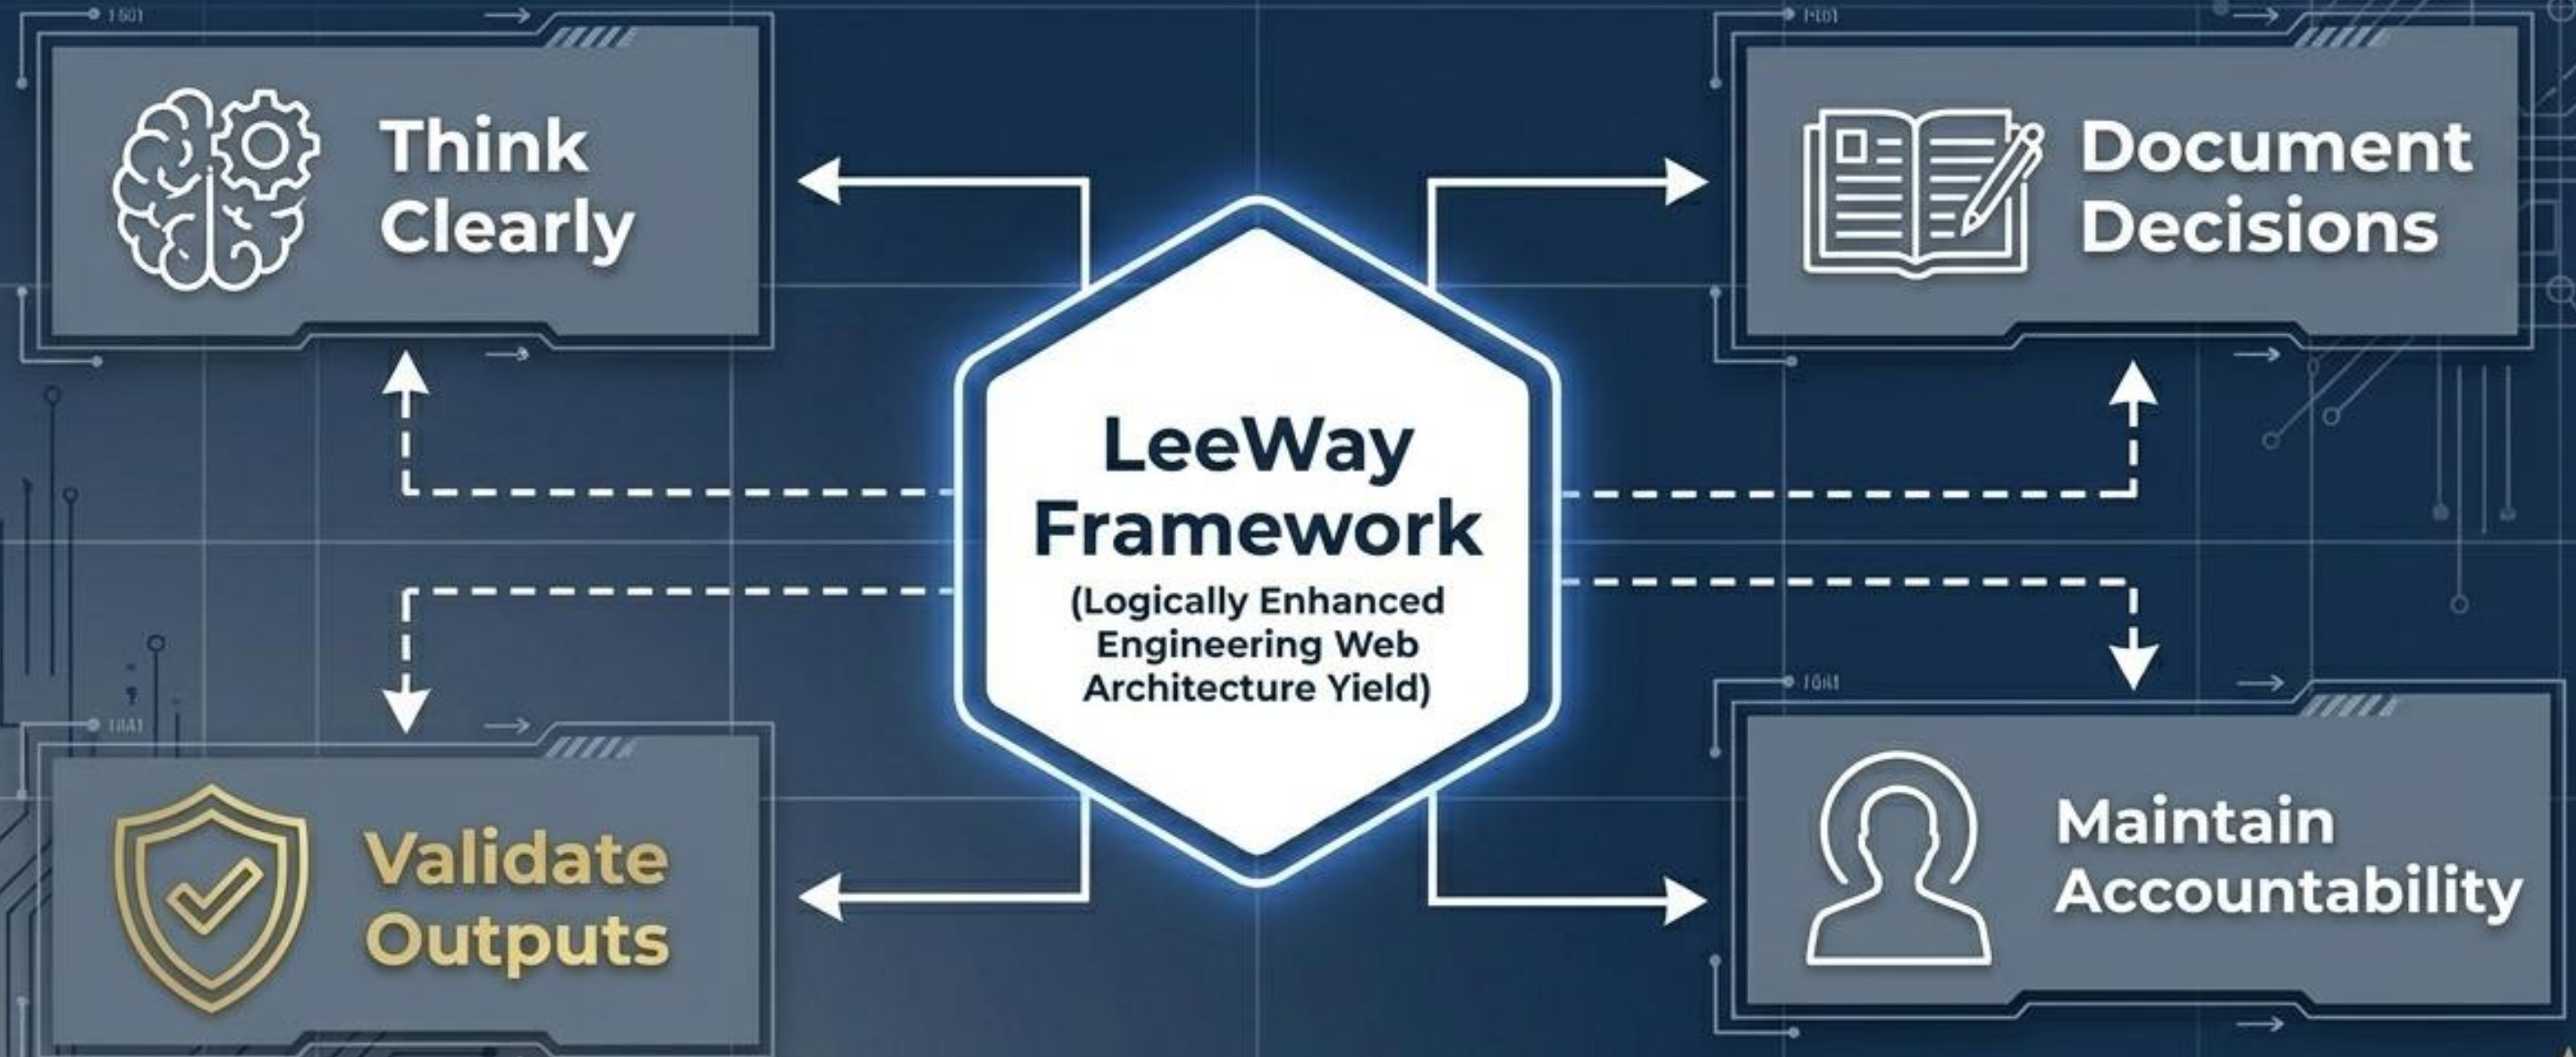

AI can accelerate mistakes just as easily as success.

**AI should increase
human capability,
not replace human
responsibility.**

Governance Blueprint

The 5-Step **LeeWay** Workflow

Intent

Context

Generation

Validation

Decision

Intent

What outcome do I actually want?

- ✓ - Resume improvement
- ✓ - Research
- ✓ - Business planning

Context

What information does the AI need to do this properly?

- ✓ - Background
- ✓ - Constraints
- ✓ - Goals
- ✓ - Audience

Context creates quality.

Step 3: Generation. AI produces drafts, ideas, summaries, and analysis.

Remember: Generation is NOT validation. The machine produces probability, not guaranteed accuracy.

Step 4: **Validation.** The Veritas Checkpoint.

AI Generation

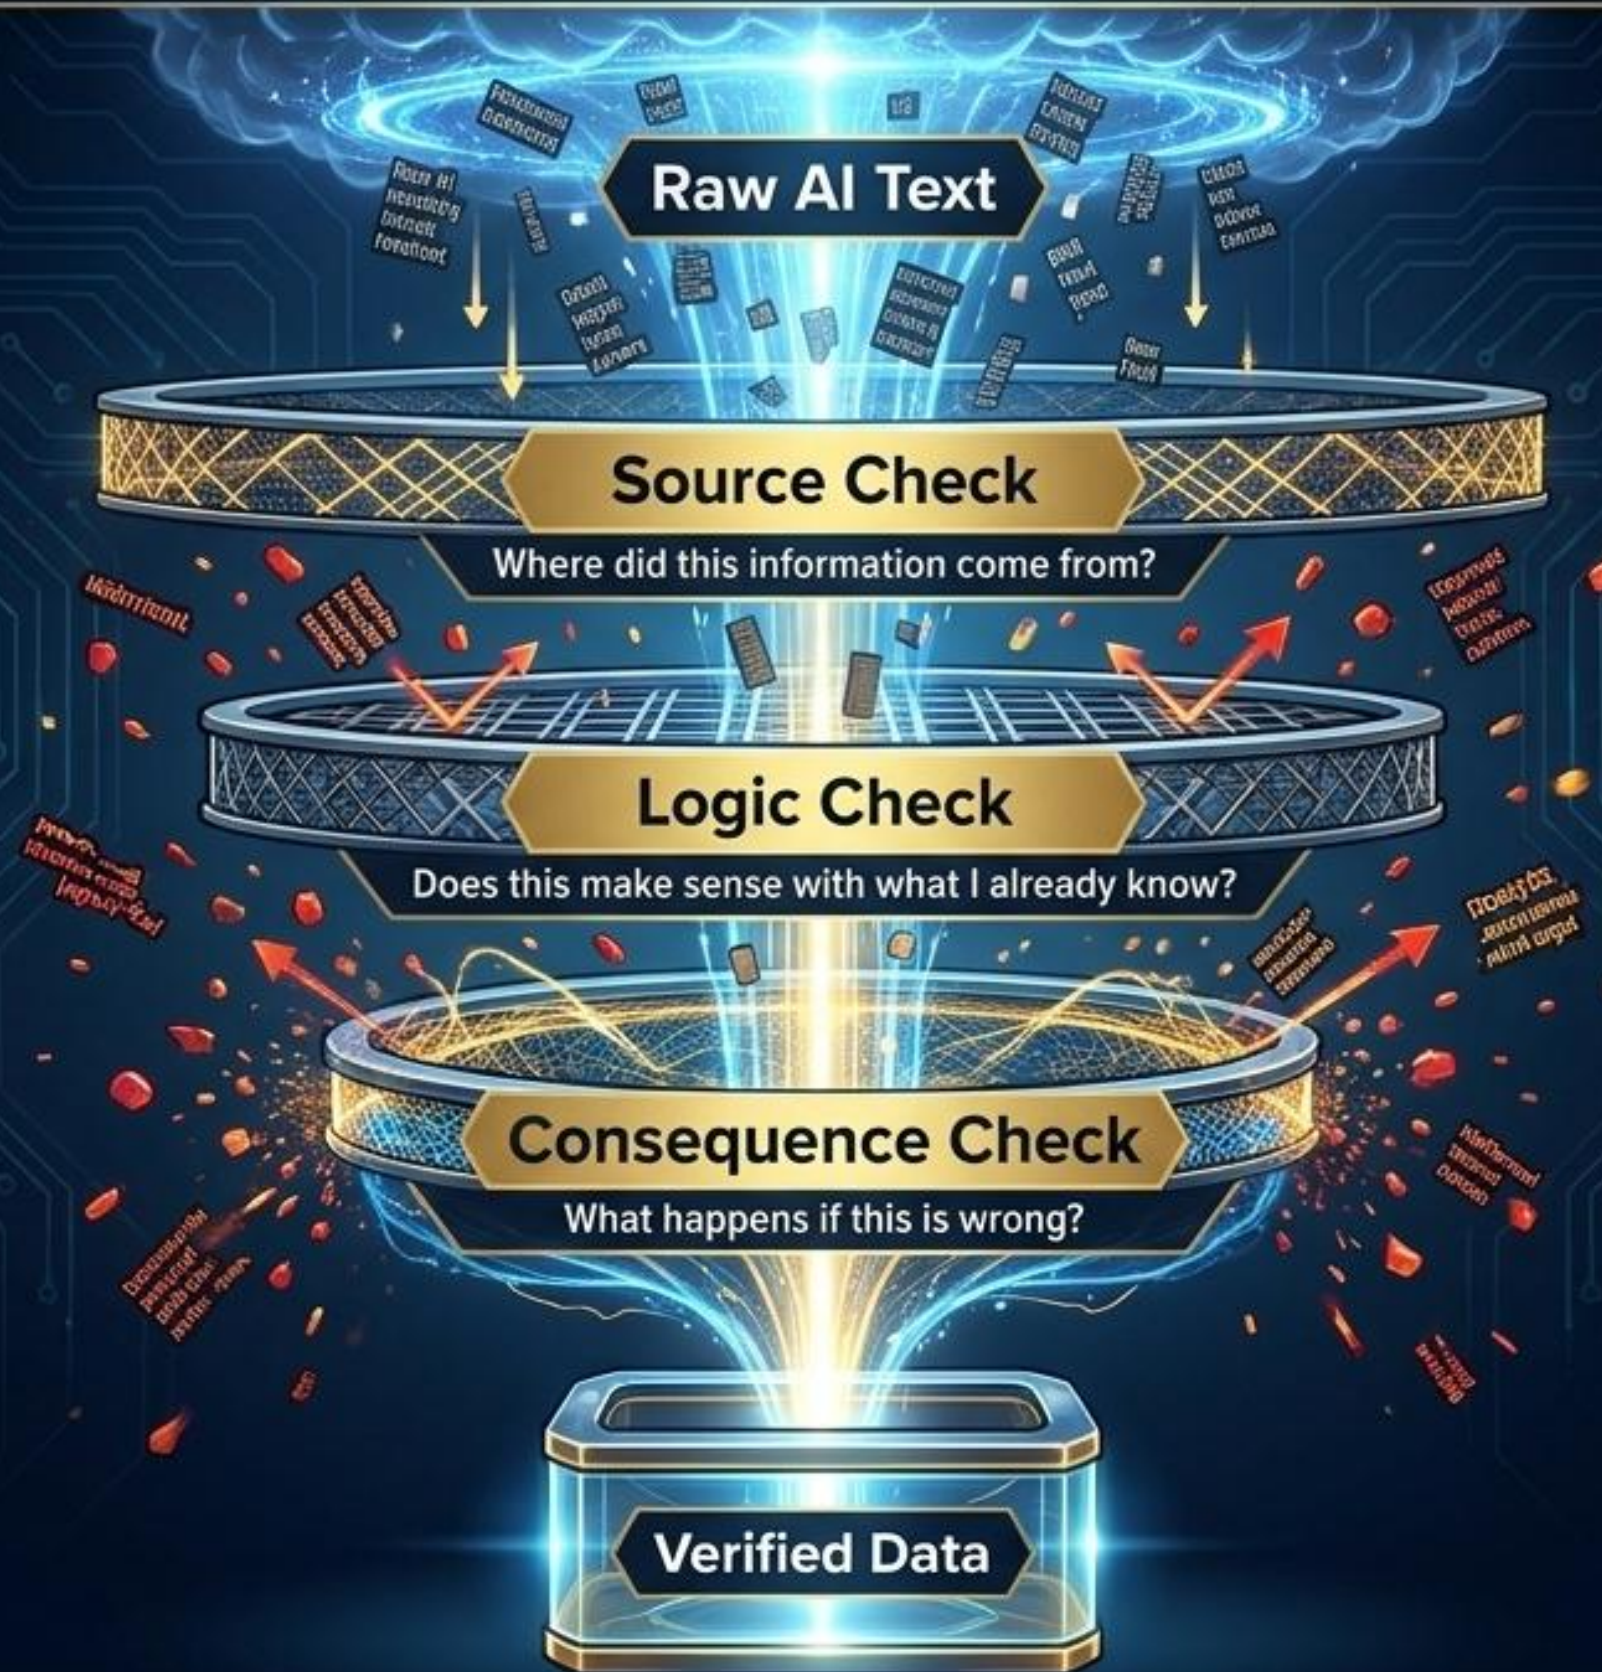

- ✓ Is it accurate?
- ✓ Is it logical?
- ✓ Is it complete?
- ✓ Is it safe to use?

A critical review stage.
Ensure alignment with
intent and context.

Deep Dive: The 3-Check Method

Step 5: **Decision.** The Human is the Final Speaker.

The machine generates. The **human**
executes and **owns** the outcome.

Interactive Demo: Enter Agent Lee

Raw Output: High Risk

Highly motivated professional professional cover letter, seeking opportunities to invocate, and seeking opportunities for vradstout, passionate about knevaggging passionate, opportunity, and lavtyns, nmmittromalwtfan, professional experieiment and tasompr, and expression libility as movlmmmgard to end incumate professional.

Agent Lee Veritas Critique

Processing through **LeeWay Spine...**

Warning: Unverified Data Detected.

Output lacks specific context (GPA, measurable skills).

Fails Logic Check: 40% fluff.

Agent Lee applies the **LeeWay Method** to prevent professional liability.

Real-World Workforce Application

Targeted Resumes

Interview Preparation Frameworks

Business Communication / Emails

Professional Portfolios

Action Plan: Build Your Personal AI Workflow.

Define: My Goal	[_____]
Identify: My AI Tools	[_____]
Establish: My Validation Process	[_____]
Create: My Documentation Method	[_____]
Enforce: My Accountability Checkpoint	[_____]

**Validate
Before
You Trust**

**Document
What
Matters**

**Humans
Own
Decisions**
